| WARRANTY.....                  | 13-14 |

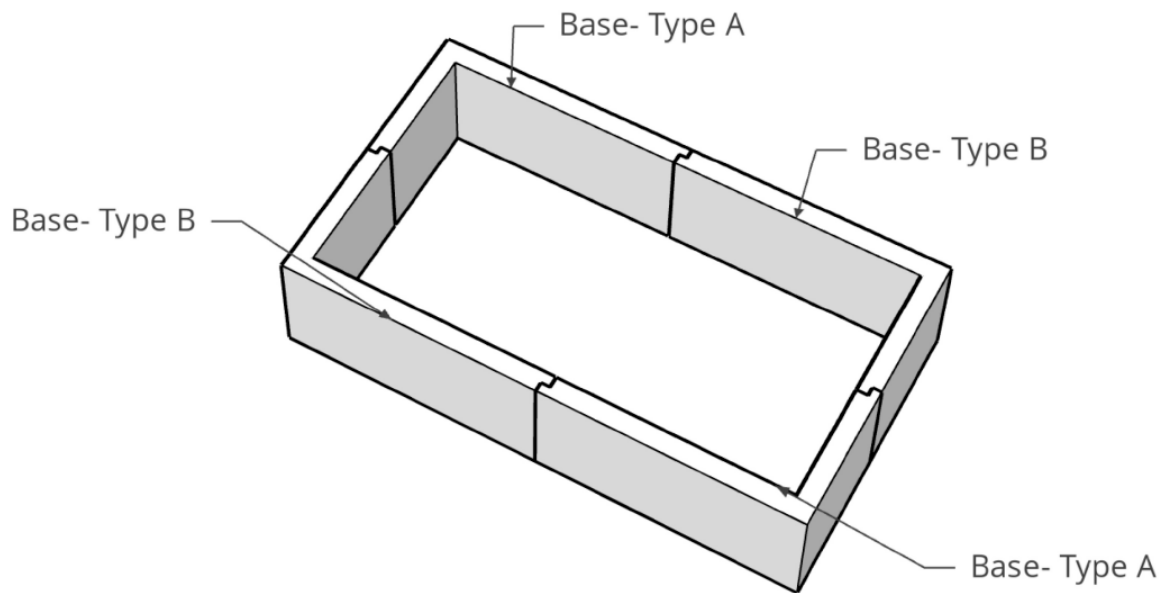

**PLEASE NOTE:**  
**IMPORTANT!!**

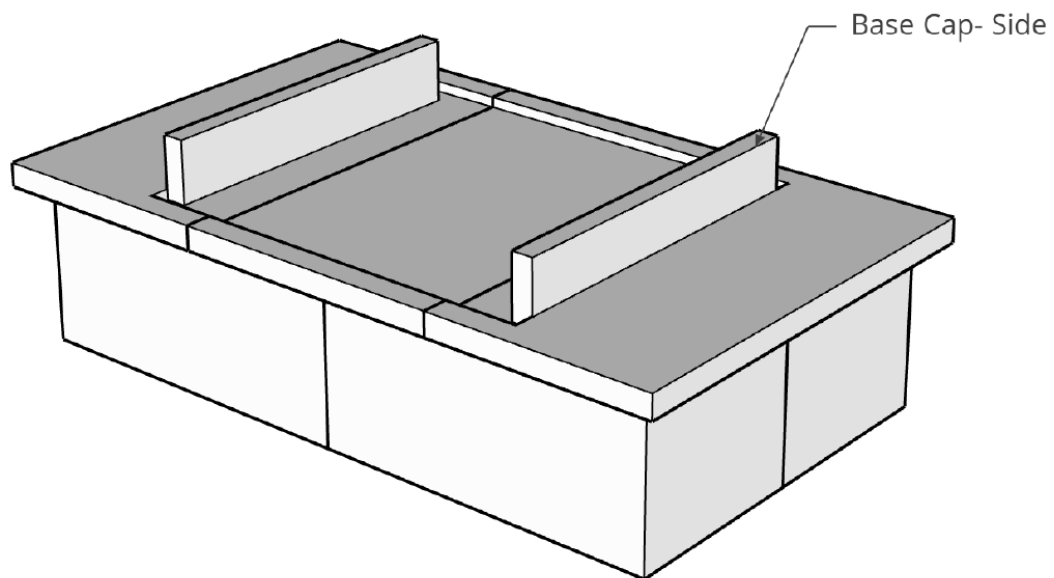

Cast Stone requires 30 days curing time.  
Please **DO NOT** use your outdoor fireplace  
during this time, as it can alter the curing  
process and may void the warranty.

1. Before setting up your new outdoor fireplace make sure the surface is **level** and suitable for an open fire – complying with township fire codes. You will need two people to set up your new fireplace.

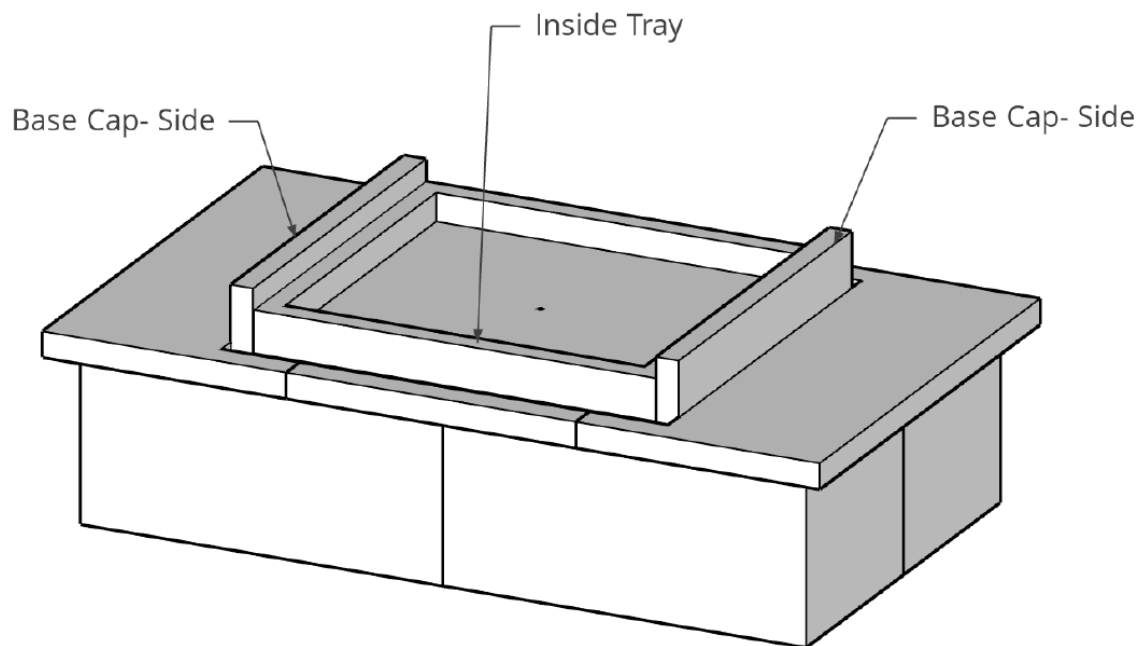

2. (4 pieces) - Setting up the base – place base type A and base type B together to create a solid base, at this point make sure that the base is square and level before proceeding to the next step.

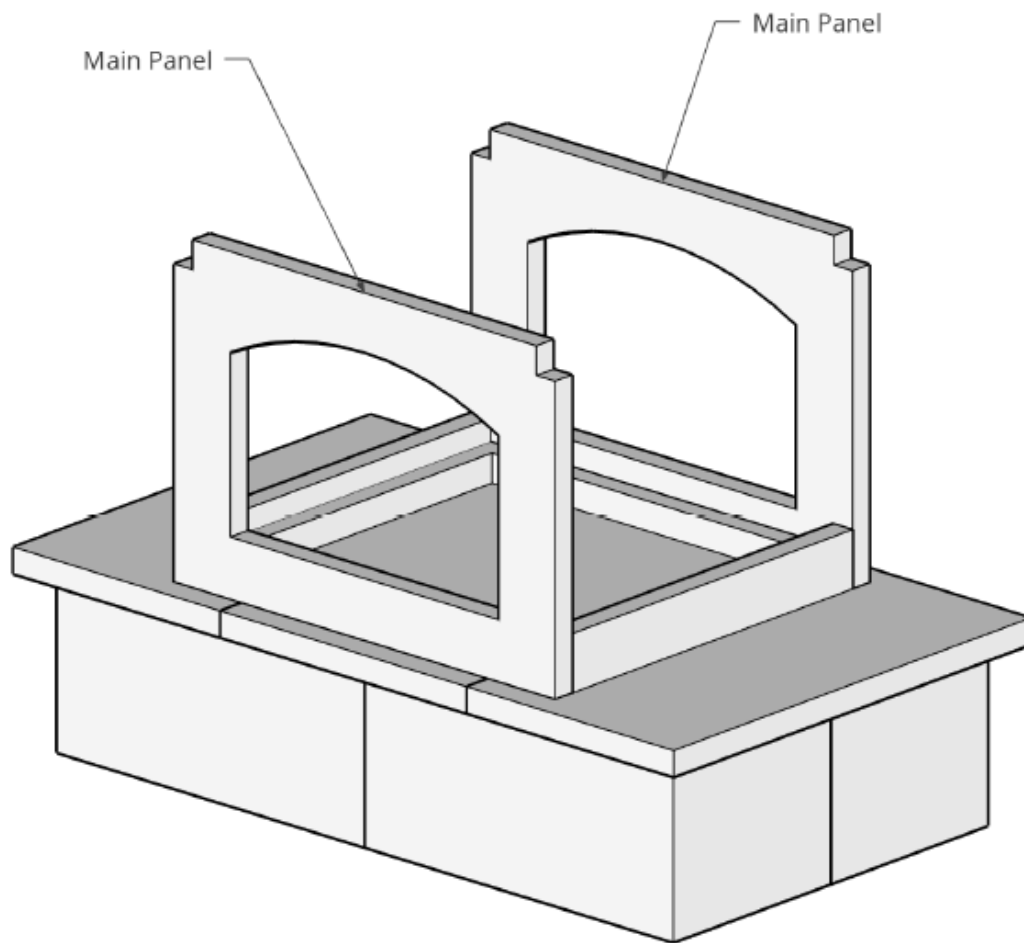

3. (3 Pieces) - Place base cap sides on first, one side at a time. Slowly slide towards the center of the fireplace. There is a ridge on the underside of the base cap that will ensure the base cap is centered and secure once in place the center piece down carefully. Make any necessary adjustments making sure the base caps are sitting within the ridges on the bottom side.

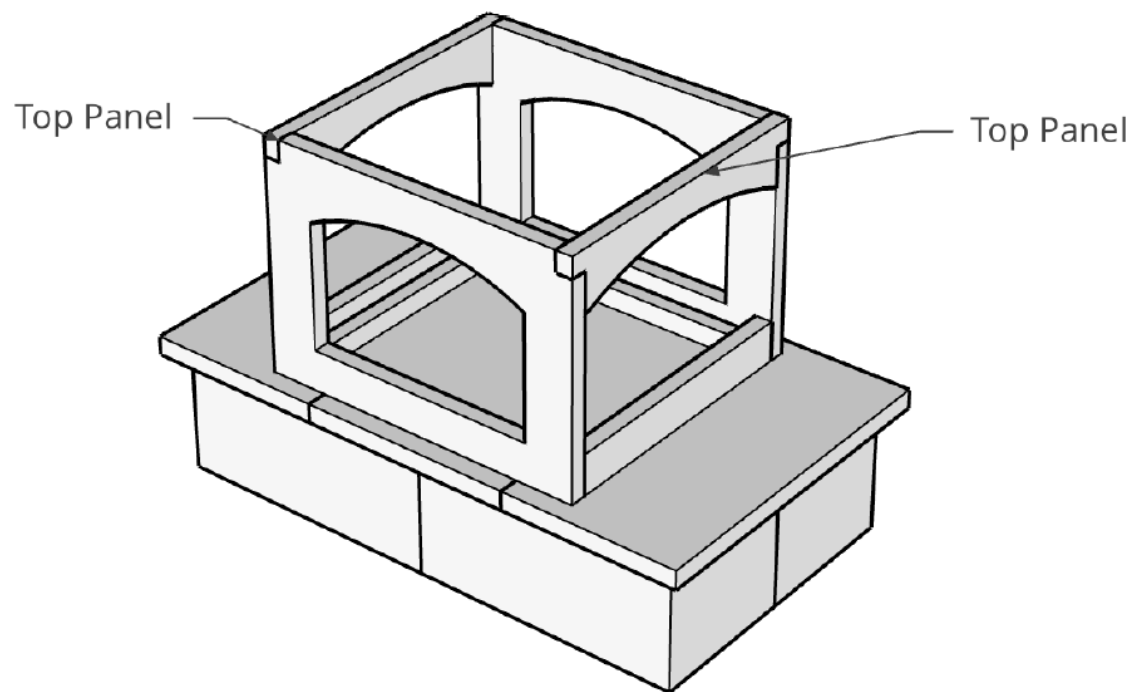

4. (1 piece) - Place the tray in between the base cap sides, this should sit securely in the center of the fireplace.

5. (2 pieces) - Slide the 2 arched main panels length wise in between the base cap plates and the inside tray, they should slide in and be secure. Make sure they are sitting securely before walking away from them to avoid any damage or injury.

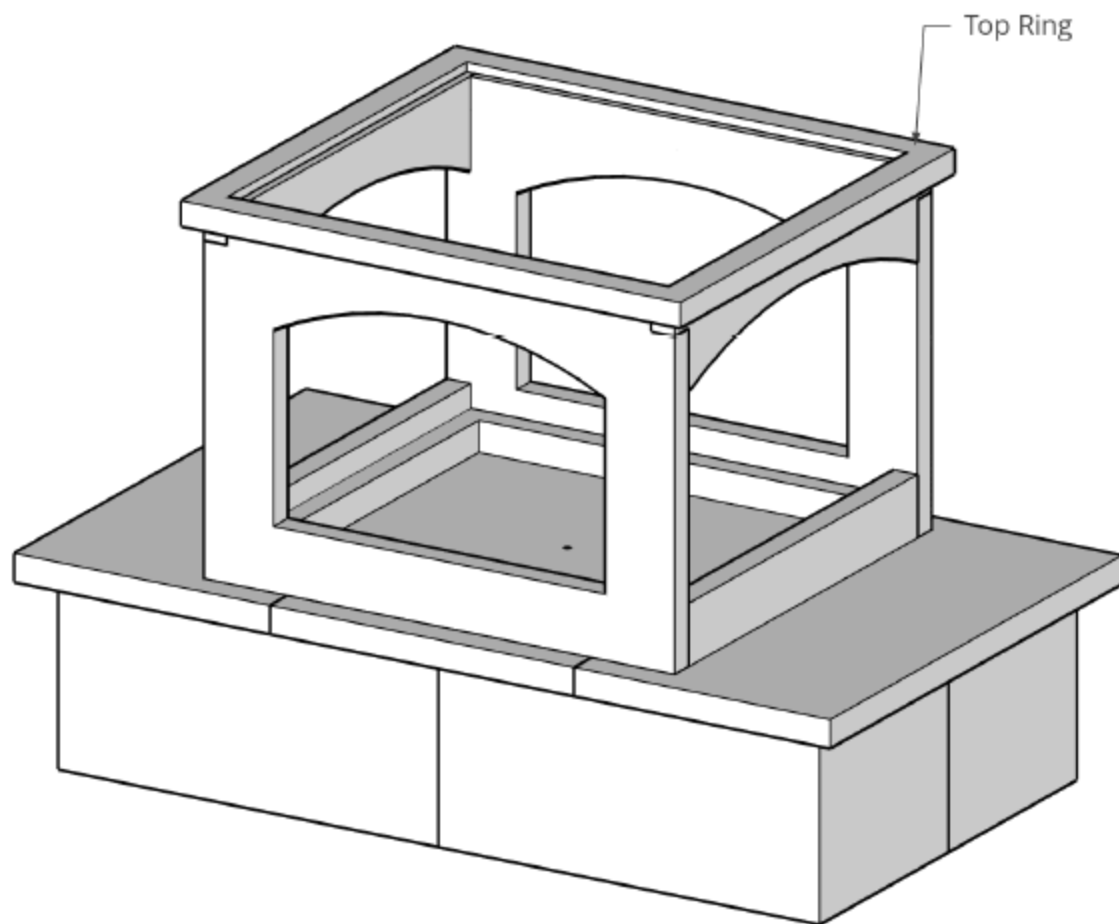

6. (2 pieces) - Slide the two arched top panels in the preexisting grooves of the four sided arched panels to ensure the panels are square and secure.

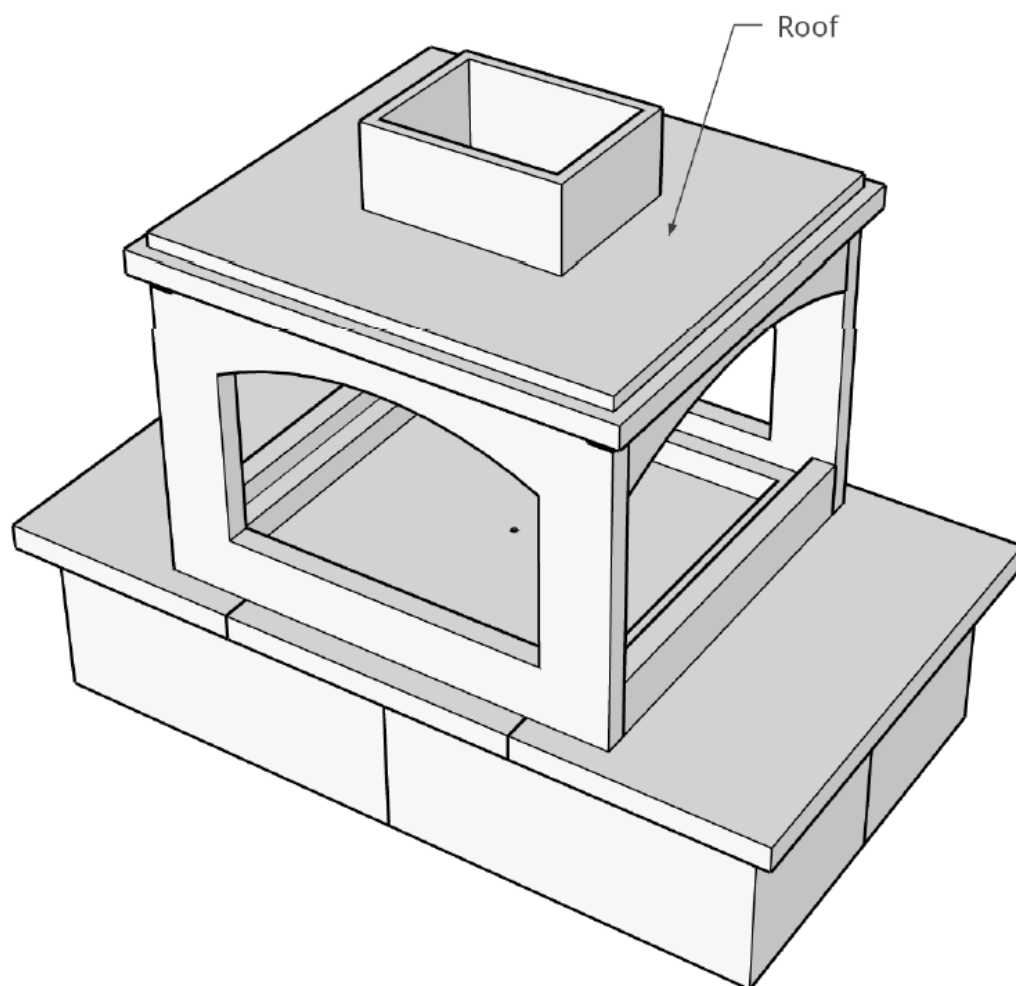

7. (1 piece) - Place the Top Ring on top of the arched panels, this ring will slide over all four sides of the panels holding the main panels together for the base of the roof.

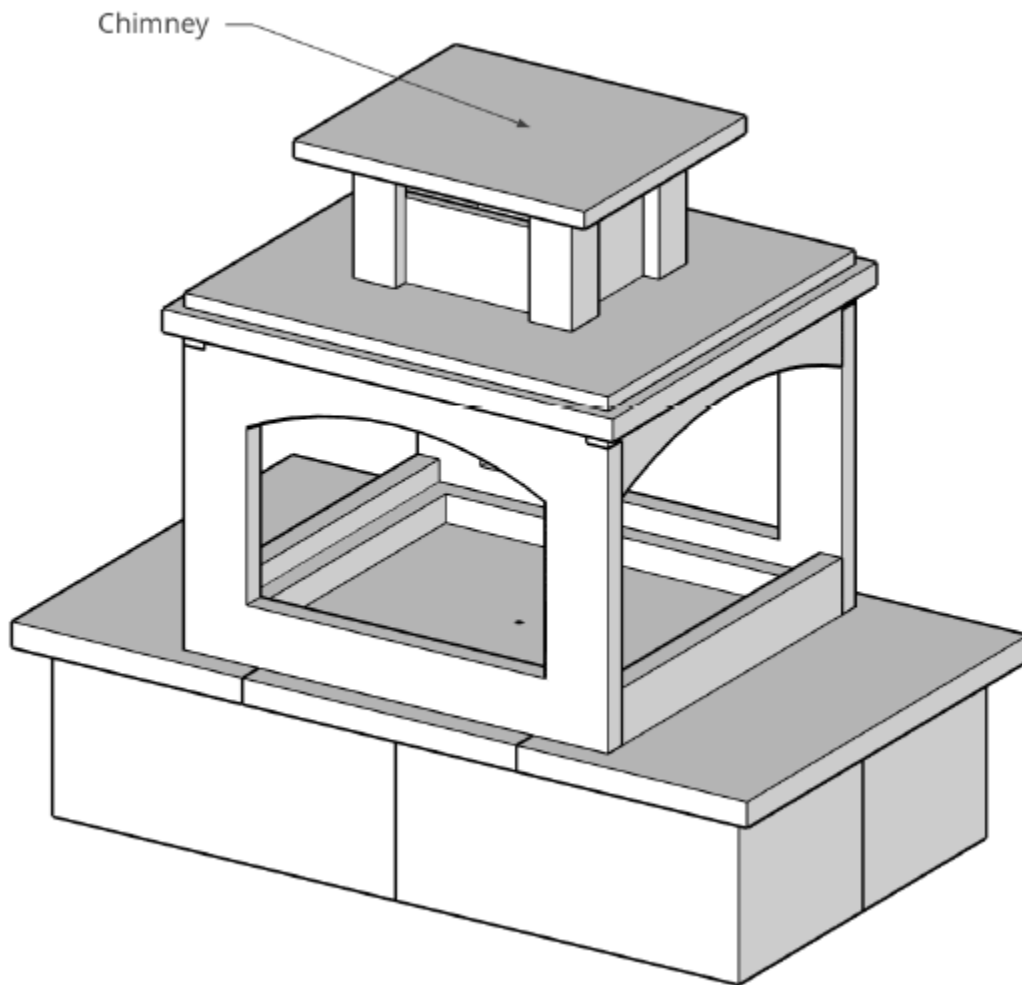

8. (1 piece) - Carefully center and inset the roof into the grooves in the center of the top ring.

9. (1 piece) - Slide the Chimney over the top center portion of the roof. The four corners will slide down securing to the roof plate.

10. Your New Outdoor Fireplace is now complete and will be ready for first use in 30 days. Please make sure to allow for this curing time to maintain the quality of the product. Failing to do so will Void the Warranty.

# **PRODUCT CARE AND CLEANING**

## **PRODUCT CARE:**

Allow 4 weeks after installation before using your firebox. Fireplace should be sealed every six months using a stone sealer.

## **CLEANING:**

Cast Stone should be cleaned regularly to avoid dust and dirt build up. You can easily clean the surface with just warm water and a clean white towel. If the surface has become soiled, you may use a solution of 1 part mild detergent, dish soap, or vinegar, with 3 parts warm water. Thoroughly rinse the entire area with clean warm water to remove any detergent residue. If you require a stronger cleanser, retail home stores or stone and tile stores sell general purpose stone cleaners. DO NOT use products containing acids or alkaline as they will damage the surface of the stone.

## **CHARACTERISTIC OF STONE PRODUCTS:**

All Cast Stone, honed and polished products have a degree of expected variation in shade and texture. These characteristic markings are all part of the stone and are to be expected.

## **OUTDOOR PRODUCT:**

All outdoor products MUST be sealed every six months. Initial application has been applied by the manufacturer. However, it is mandatory to reapply.

# 1-YEAR LIMITED WARRANTY

*First, let us thank you for purchasing an Omega Mantels Cast Stone Product. We hope you will enjoy our product for years to come, as it was manufactured with great care and pride by true artisans.*

1. Omega Mantels warrants its products to be free of manufacturing defects. By "defects" we mean any imperfections that can impair the use of these products. Please note irregularities and variations of shading and texture are characteristic of cast stone products. Therefore, they are not to be considered as defects or a cause of complaint.
2. The warranty is solely limited to the repair or the replacement of defective pieces of mantels to their original state. Omega Mantels commits to replace defective pieces free of charge; however, Omega Mantels will not incur any labor costs associated with the installation.
3. Omega Mantels cast stone products are manufactured using a proprietary formula which will withstand high-temperature, resulting in neither discoloration nor heat cracks.
4. This warranty applies for normal use conditions and does not apply to any defects resulting from negligence, installation errors, misuse, overuse, overexposure or modifications made by the buyer.
5. Omega Mantels reserves the right to request proof of purchase or other related documents in order for this warranty to apply.
6. This warranty is offered to the original buyer and cannot be transferred.
7. Omega Mantels warranty applies in Canada and U.S.A and is only valid if the installation has been carried out in accordance with the instructions given by the manufacturer.

# SHIPPING DAMAGE

We do our best to ensure that your order arrives in satisfactory condition. We inspect your order prior to shipment to ensure all items are in excellent condition before they leave our facilities. Although our products are packaged securely to prevent any damage, it's possible that damage may occur during shipment.

It is your responsibility to inspect the goods you receive immediately upon receipt for damage. If any goods appear to be damaged in shipment, please note it on the bill of lading, refuse shipment and contact us immediately. Photos are mandatory in facilitating damage claims, please take photos of the packaging and damaged goods, which will enable us to file a freight damage claim.

NOTE: We cannot be held responsible for the cost of repairs or replacement of damaged items if there is no notation on the Bill of Lading. Shipping damage claims must be made within 72 hours of delivery.
